## فواصل تسوية البلاط TILE SPACERS

Flat base maximizes adhesive coverage and ensures tile surface is lippage-free

**4 CLIP SIZES** Available in four

popular grout widths 1/32", 1/16", 1/8" and 3/16"

**DESIGN** 

Notches on each side of the clip allow mortar to dispense evenly to eliminate potential voids

**HOLD** 

Wide wedge design holds tiles securely while mortar dries

The Tile Leveling System was developed out of a need to diminish costly mistakes due to unleveled tiles causing lippage in high-end installations. It is the perfect system to use with tile plank and large-format rectified porcelain, marble and stone and the flat base design is ideal for wall tile installations. This time saving system adjusts the height of the tiles and evenly holds their edges throughout the curing process. It is the most cost effective installation method on the market to eliminate lippage.

The Tile Leveling System comes in 4 clip sizes, 1/32", 1/16", 1/8" and 3/16", and provides narrow grout lines for tiles up to 1/2" thick.

\*25% longer blade life, Proven by 3rd party independent testing.

# فواصل تسوية البلاط TILE SPACERS

Slide two clips under the tile and into the mortar approximately 2" from each end of the tile. Place the second tile.

Slide the reusable wedges into the clips to level, align, space and hold the tiles.

Once mortar has set, simply tap the clips with a non-marring rubber mallet to snap off at the specially designated break-points. Save wedges for future use.

The Wall & Floor Tile Leveling System should be used with a minimum 1/2" x 1/2" x 1/2" square trowel notch to apply the setting material. Back buttering your tile is always recommended.
